*You have a winner here! Great presentation [on "Crimes Against the Elderly: Medical and Legal Tools for a Rapidly Growing Problem" Judicial Conference]. So important! So misunderstood. Well done!*

*This is paramount for the preservation of our elder population. As stated in the introduction of the class, 'Old people are expected to die, but some die prematurely and un-naturally.'*

*I plan to use what I learned in the course to present the determination of decision-making capacity [material] to staff members & present a scenario to give staff practice.*
